MEMORANDUM FOR: C/HOME/OL  
FROM: Deputy Director, Office of Legislative Liaison  
SUBJECT: Motor Pool Support to OLL

Bill:

1. In the past three workdays we have had three occasions where transportation support has stranded our officers and those they were escorting to Congressional briefings. In two cases we had forty-minute waits. In the third case we had to send another of our officers to pick up the strande.

2. I think these cases illustrate why we need two dedicated drivers and cannot rely on Motor Pool support on a drop-off and pick-up basis. In one case a hearing ended early. In another case it ran late. Since we do not control hearing times, we cannot live by a Motor Pool schedule that is also attempting to accommodate the rest of the Agency with limited resources. Whenever the Motor Pool sends a pick-up, we have trouble making contact if we are at the Capitol which is where we are most of the time. All of these things mandate dedicated cars and drivers. We can work with the Motor Pool if they let us keep the car and driver until the trip is over, or the day is over if trips are running on top of each other.

3. I know this is a problem for the Motor Pool, and I am willing to try anything except a reduction in service. Please advise.
